

TELEPHONY- INTEGRATION WITH CRM COMPANIES

At UNIFYWEBS, we recognize the critical role that communication plays in business success. Our Telephony Integration solutions with CRM companies are designed to streamline and enhance your communication processes, bringing efficiency, accuracy, and improved customer interactions.

OUR SOLUTIONS

✔ Telephony-CRM Integration

UNIFYWEBS specializes in integrating telephony systems with CRM platforms, creating a unified and intelligent communication ecosystem.

Seamlessly connect your telephony infrastructure with popular CRM solutions, enhancing your ability to manage and analyze customer interactions.

✔ Automated Call Logging

Simplify your workflow with automated call logging. Our integration ensures that every call is logged accurately in your CRM system, providing a comprehensive view of customer interactions.

✔ Click-to-Call Functionality

Empower your team with click-to-call functionality directly from the CRM interface. Improve efficiency and reduce manual dialing, enabling faster and more convenient communication.
